The Governor yesterday honored the request of the Governor of Illinois for Elmer E. Bates, who is under arrest at Hamilton, Mo. He is wanted at Paducah, Ill., for obtaining \$100 in money and other goods from a grocery store in that city.

Merchandise firm under \$100,000.

Folding Beds at all prices—Wm. L. Elder.

## GLASS TRUST MEETING

MEMBERS WILL REORGANIZE THE OLD ASSOCIATIONS.

Maintenance of Last Year's Wage Scale Considered a Victory—Some Factories Still Out.

The window-glass manufacturers of the United States held an all-day meeting at the Denison House yesterday and it was the most largely attended meeting that has ever been held, nearly every factory in the country being represented. Among those present were H. Sellers McKee, J. O. C. Campbell, John H. Johnston, L. S. Cunningham, Thomas Wrightman and C. W. Phillips, all of Pittsburgh; W. S. Foltz and E. I. Phillips, of New Castle, Pa.; Philip Matter, Joel G. Sayre and T. C. Hawkins, of Marion; T. F. Hart and A. K. Smith, of Muncie; S. E. Woodbridge, Redkey; Charles S. Eastman, Anderson; K. T. De Pauw, New Albany; H. W. Heer, Alexandria; H. B. Smith, Hartford City, and George A. Schlostein, Dunkirk.

The stories that the window-glass Trust had gone to pieces were laughed at by those on the floor. The organization is not on the trust basis, nor is it in the form of a sales company, but up to date it has served the same purpose. They have had a dual association, one for the Eastern factories and one for the Western, with a sales agent at Pittsburgh and another at Muncie. These two men have handled all the product of the factories and have kept in constant touch with each other and used the same schedule of prices.

By limitation of the agreement both of these associations were to expire to-day and the meeting yesterday was for the purpose of reorganizing. For the past three or four weeks, while the fight was on with the window-glass workers over the wage scale, it looked a bit equally for the associations, but the outcome of the conference, resulting in what the manufacturers claim as a victory, has made a reorganization comparatively easy. Some of the smaller factories had already started up and declared their intention of making and selling glass with or without the sanction of the association. Since the result of the conference has been so favorable, the trust will not be asked to close and wait for the general opening.

During the morning session the manufacturers reached an agreement to form a new organization in the shape of a double association to take up the details of organization and schedules of prices. Stocks are reported to be low and the manufacturers say that they will be able to start full production in a few days. Under the operation of the two associations the price of window glass was advanced in the neighborhood of 25 per cent, and with the new organization prices are not likely to drop to any appreciable extent.

It was agreed to reorganize the Eastern and Western associations on a firmer basis and much time was spent in pointing out the weaknesses of the old form of association. The general complaint against it was that it was too loose to hold the members up to the strict line and that there was no sufficient way of disciplining recalcitrant members. The plan of the new association is to have a joint committee, a sales company in which all members should be stockholders, which should purchase and sell the glass. The plan was discussed and the only objection raised to it was that it would be difficult to adjust the affairs of this company that each stockholder should get out of it his share in proportion to the product of his factory. Finally a joint committee composed of three from each association was appointed for the purpose of preparing a plan, which will be submitted to the general meeting this morning. The members of the committee are: Harry B. Smith, of Hartford City, one of the members of the joint committee, said that all the manufacturers would get together. The dual plan of organization was approved by the manufacturers and the manufacturers were looking for a fairly busy season.

### PLANTS HOLDING OUT.

Several in Indiana Are Going Ahead Without the Trust.

Special to the Indianapolis Journal.

ANDERSON, Ind., Nov. 30.—The window glass manufacturers of Indiana are still at sea so far as the certainty of a new organization being formed is concerned. Upon the return of Anderson's representatives to-night it was ascertained that another session would be held in Indianapolis to-morrow to decide the matter. Committees were appointed to visit the factories that have held out and if possible secure their co-operation in completing a new organization. The large plant at Orestes and that of the De Pauw at Alexandria have finally consented to come into the association. These plants so far have stood aloof and it is hoped by the trust organizers to secure the unanimous co-operation of all Indiana manufacturers and that is still a matter of great uncertainty and as several of the plants have begun showing it is doubted if they will give in. The plant still holding out are at Marion, Gas City, Pendleton, Elwood and Swayzee.

### Factories Starting Up.

Special to the Indianapolis Journal.

ELWOOD, Ind., Nov. 30.—The plate glass factory of this city resumed operations to-night and will be in full operation in a few days, furnishing employment to 700 men. This factory is one of the best of the trust plants and will be kept in operation as long as possible. The window glass factories at Franklin, Cambridge 30 and 32 will start to-morrow and will be run steadily all the remainder of the year. The outlook for the glassworkers is very bright, and the indications are that they will have steady employment the remainder of the year.

### AN AWFUL CRIME.

John Rushton Accused by His Sister of Causing Her Downfall.

Special to the Indianapolis Journal.

ANDERSON, Ind., Nov. 30.—The plate glass factory of this city resumed operations to-night and will be in full operation in a few days, furnishing employment to 700 men. This factory is one of the best of the trust plants and will be kept in operation as long as possible. The window glass factories at Franklin, Cambridge 30 and 32 will start to-morrow and will be run steadily all the remainder of the year. The outlook for the glassworkers is very bright, and the indications are that they will have steady employment the remainder of the year.

John Rushton, twenty-eight years old, was arrested yesterday on a serious charge made by his fifteen-year-old sister, Alice Rushton. The story told by the girl is one that is shocking in every detail. She says that the case is one which will also justify a criminal charge being made against her brother. Twice, she says, he assaulted her, the first time by force and then in June in her mother's house at 114 Madison avenue.

The condition of the girl led to an investigation by the mother, which resulted in the girl telling the story a week ago. John Rushton and his wife and his sister live with Rushton's mother. Neither the girl nor her mother knew her condition until a week ago, when she was taken to a physician for treatment for unknown ailments. It was then that the girl told the story of her brother's treatment of her. The mother, however, hesitated about informing the police until she became fully convinced that her daughter was telling the truth. Then she told the case before Superintendent Colbert and her son was arrested.

Rushton refused to talk about the case yesterday further than to say that he was innocent. During the day his wife called on account of the charge made against him, but declared that he was not guilty.

Rushton has two brothers. The threat of one of them to kill him probably had something to do with the mother's determination to cause his arrest.

The Rushtons are very poor people, but there is no reason to believe that they are in any way connected with the case.

John Rushton seems to be a man of no account, and it is probable that he is a vagabond.

Folding Beds at all prices—Wm. L. Elder.

It means a big sacrifice. It's your chance. Look everywhere, then come here. You'll quickly see the big saving.

## H. P. WILSON & CO

### MANY DELEGATES HERE

MONETARY CONFERENCE TO BE HELD THIS AFTERNOON.

All but Two of the Cities Invited, Kansas City and Louisville, to Be Represented.

The movement for a national convention of commercial bodies is taking shape handsomely. All the cities invited to the preliminary conference to be held to-day have responded with the exception of two. It is not the intention at to-day's conference to go into the details of a discussion as to the weaknesses of the present currency system or to endeavor to point out any remedy therefor. It is simply for the purpose of calling a convention that will be thoroughly representative of the business interests of the country to take up this subject seriously and endeavor to give concrete expression to the experience and advice of veteran business men. The men who originated the movement have no particular currency scheme that they desire to advance nor have they formed an opinion as to what measures Congress ought to adopt. They simply believe that the present system has various faults and is open to danger, and believe that these faults can be pointed out and the proper remedy found.

Most of the delegates arrived last evening, and the morning trains will bring the others. The following organizations will be represented: Cincinnati Chamber of Commerce, Chicago Board of Trade, Cleveland Chamber of Commerce, Commerce Board of Trade, Detroit Board of Trade, Des Moines Commercial Exchange, Grand Rapids Board of Trade, Indianapolis Board of Trade, Indianapolis Commercial Club, Milwaukee Chamber of Commerce, Minneapolis Board of Trade, Omaha Board of Trade and Peoria Board of Trade. The only organizations not responding to the invitation were the Louisville and Kansas City boards of trade. The following well-known business men will represent their cities:

Cincinnati—M. E. Ingalls, Herman Goepfer, W. Cooper, Fred W. Dousman, D. A. Eckhardt, T. B. Weare.

Chicago—H. G. W. Cowles, E. A. Angell, De Moines—W. A. Park, George M. Reynolds.

Grand Rapids—H. J. Hollister, L. H. Withey, N. A. Fletcher.

Indianapolis—H. J. Hanna, E. B. Martindale and George G. Tanner for Board of Trade, and J. T. Brush, Louis Holweg and Herman Lieber for Commercial Club.

Milwaukee—F. H. Magdeburg, H. L. Palmer.

Minneapolis—T. B. Walker, James M. Barnes, Henry Hill.

Columbus, Ohio, Omaha and Peoria have not sent advance lists of their delegates.

The joint committees on arrangements met yesterday morning and accepted the offer of the Denison House of the use of the Century clubrooms at that hotel for the meeting to-day, and the session will begin there at 2 o'clock with an address from J. C. Adams, president of the Board of Trade, in explanation of the meeting.

The only business to be transacted is to decide the question of whether or not a national convention of commercial organizations should be called, and if so, the subject of currency reform, and it is predicted that this business will be readily accomplished without any further delay.

The visiting delegates will be entertained by the two local organizations at a buffet lunch served at the Commercial Club this evening.

Representative J. H. Outhwaite, who was in the city yesterday on his way to Washington, was asked what effect such a convention as is proposed would have in shaping currency legislation. "Whatever the convention may see fit to propose," said he, "will be referred to the committee on banking and currency and given the consideration to which it is entitled. It will be treated as a memorial, and if its views are along the line of those of the committee they will be quoted, but otherwise I can not say what effect it would have. I believe the chief benefit to be derived from the convention will be to give a strong sentiment on the subject and get people to thinking and talking about it. That is our patch-work system is revised."

Representative J. H. Outhwaite and W. F. Burdette, president of the Commercial Board of Trade, arrived last evening to represent Columbus at the conference. Mr. Outhwaite was one of the strong men in the national Democratic convention last summer, and has given much study to the subject of the currency. When asked what effect he thought the movement would have on Congress he replied, "I think the chief benefit will be to give a strong sentiment on the subject and get people to thinking and talking about it. That is our patch-work system is revised."
